Membership Options

We have a membership option that is right for you:

IEEE Professional Member
$25 USD

IEEE Student Member
$13 USD

or

Society Affiliate
$98.50 USD

AESS Field of Interest

Members have professional interests in the organization, systems engineering, design, development, integration, and operation of complex systems for space, air, ocean, or ground environments. These systems include but are not limited to navigation, avionics, mobile electric power and electronics, radar, sonar, telemetry, guidance, control, automatic test, simulators, and command and control systems. The AESS is the society for engineers working across the entire electronics systems domain.

@IEEE_AESS
Welcome!

The IEEE Aerospace & Electronic Systems Society provides a global professional home for professionals in academia, industry and Government working in the electronic systems domain. The IEEE AESS is the only professional society dealing with total integrated electronic systems and the enabling technologies. The Society fosters the dissemination of the culture of Complex Systems through the global AESS community, bringing a beneficial exchange of experience and achievements among our members. AESS members have access to educational initiatives, professional development, and networking opportunities, as well as top technical information covering the organization, systems engineering, design, development, integration, and operation of complex systems for space, air, ocean, or ground environments. The AESS is committed to providing the highest level of service and benefits to members and affiliates in every stage of their careers. I invite you to join our society!  

- Joe Fabrizio, AESS President, 2018-2019

AND THERE’S MORE...

**Technical Information**

By joining AESS, you'll receive monthly issues of the peer-reviewed IEEE Aerospace and Electronic Systems Magazine and significant discounts for IEEE members to top-ranked journals, such as the IEEE Transactions on Aerospace and Electronic Systems. And, you will have access to the Aerospace and Electronic Systems Conferences Digital Library. Savings on subscription costs for IEEE members easily pays for the cost of AESS membership.

**Conferences**

You can participate in specialized conferences and workshops organized in response to identified needs. Receive discounted conference registrations at leading international technical conferences where you can network, learn best practices from the industry’s experts, and share information with peers.

**Technical Panels**

Participate in one of the AESS Technical Panels to support creating IEEE Standards and Conferences, influence future technical advancements, and respond to changing technologies.

**Education**

You’ll receive offers for advanced educational activities through local Chapters, including access to tutorials, lectures, distinguished lectures, and short courses offered world-wide.

**Communications**

You'll enjoy free access to the AESS Resource Center, a one-stop shop for publications, educational material, research tools, and data. It’s a robust, web-based, technical learning and research center tailored to support the educational, career, and research needs of AESS members. AESS also publishes a quarterly e-mail blast to all members with the latest news and announcements.

**Cooperation**

Collaboration opportunities are offered through three IEEE Councils: Systems Council, Sensors Council, and Nanotechnology Council, as well as with IEEE/USA and other regional activities.

**Chapters**

A world-wide distribution of AESS chapters offering numerous educational, technical, and networking opportunities.

**Student-Focused Initiatives**

AESS creates strong ties with students and young professionals through education and mentoring. AESS offers many student-focused initiatives including the new AESS Engineering Scholarship, the Robert T. Hill Best Dissertation Award, the Professional Networking and Mentoring Program, and funding for various student-centered projects.

**Awards**

A substantial Awards and Recognition Program for the AESS membership and the Aerospace community.

**Web**

The AESS web site is updated daily with news from our various committees: Conferences, Education, Industry Relations, Member Services, Publications, and Technical Operations.

**Mentoring**

The AESS Professional Networking & Mentoring Program is a structured program specifically designed to connect students and young professionals with experienced leaders in AESS fields of interest. You must be an AESS member to take advantage of this opportunity!

**The Bottom Line**

The IEEE Aerospace and Electronic Systems Society (AESS) has engaged, supported, and recognized the world’s leading aerospace and electronic system professionals since 1963. AESS is dedicated to meeting the needs of all levels of membership, from students and young professionals, shaping the leaders of tomorrow, to advancing the careers of more experienced professionals. AESS is committed to providing the highest level of service and benefits to all its members. Join us. It’s one career move you’ll never regret.
