

IEEE Senior Membership

Senior Membership is the highest grade for which application may be made and shall require experience reflecting professional maturity; a candidate should be an engineer, scientist, educator, technical executive, or originator in IEEE-designated fields in professional practice for at least ten years and shall have shown significant performance over a period of at least five of those years.

An application for Senior membership requires three references unless nominated by a Senior member, and in that case requires two references.

For more information, go to the IEEE Senior membership section of the IEEE Web site.
