

Membership Options

We have a membership option that is right for you:

IEEE Professional Member
\$25 USD

IEEE Student Member
\$13 USD

or

Society Affiliate
\$98.50 USD

*IEEE Aerospace &
Electronic Systems Society*

IEEE

Welcome!

Membership in the IEEE AESS offers you a global professional home to develop your career, with the opportunity to connect with the three pillars of the aerospace, electronics, and defense sector: industry, academia and research centers. Effective interaction between these pillars is the key to the organization, design, development and operation of complex systems, which lie at the core of the AESS field of interest. We invite you to join us!

- Teresa Pace, AESS President, 2016-2017

Members have professional interests in the organization, systems engineering, design, development, integration, and operation of complex systems for space, air, ocean, or ground environments. These systems include but are not limited to navigation, avionics, mobile electric power and electronics, radar, sonar, telemetry, guidance, control, automatic test, simulators, and command and control systems. The AESS is the society for engineers working across the entire electronics systems domain.

The IEEE Aerospace and Electronic Systems Society (AESS) is waiting for you. Comprised of professionals who share your technical interests, joining AESS allows you to deepen ties to your technical community and take advantage of specialized opportunities.

Our field is constantly changing and your participation will enable you to be more effective in your career. The AESS is committed to providing the highest level of service and benefits to members and affiliates.

Technical Information

Monthly issues of the peer-reviewed IEEE Aerospace and Electronic Systems Magazine and significant discounts for IEEE members to top-ranked journals, such as the IEEE Transactions on Aerospace and Electronic Systems, and to the Aerospace and Electronic Systems Conferences Digital Library. Savings on subscription costs for IEEE members easily pay for the cost of AESS membership.

Conferences

Discounted conference registrations at leading international technical conferences where you can network, learn best practices from the industry's experts, and share information with peers. Also, participate in specialized conferences and workshops organized in response to identified needs.

Technical Panels

Participate in one of the AESS Technical Panels and learn while influencing future technical advancements and worldwide standards. Help form new technical panels in response to changing technologies.

Education

Advanced educational activities through tutorials, lectures, and distinguished lectures offered world-wide.

Communications

A quarterly e-mail blast to all members with the latest news and announcements.

Cooperation

Collaboration opportunities through four IEEE Councils: Systems, Sensors, Biometrics, and Nanotechnology, as well as with IEEE/USA or other regional activities.

Chapters

A world-wide distribution of AESS chapters offering numerous educational, technical, and networking opportunities.

Projects

Student focused projects, meetings, and conferences.

Awards

A substantial Awards and Recognition Program for members and chapters.

Web

The AESS web site updated daily with aerospace news links, presentations from AESS governance meetings, governance documents, and much more.

New!

AESS Professional Networking & Mentoring Program: A structured program is specifically designed to connect students and young professionals with experienced leaders in AESS fields of interest.
