ACTIONS & THOUGHTS

- Rowan University Joint Chapter Creation
 - Attempting to obtain signatures to meet minimum requirements for creating a joint chapter.
 - Lack of response from students.
 - Working with student branch leaders to garner support from members.
 - Polling members to determine who are and are not members of IEEE.
 - Upon completion of poll, work with branch leaders to determine a means of increasing IEEE membership in branch.
 - Involve AESS to generate support from students, possibly provide a speaker for the Student Professional Awareness Conference (SPAC).
 - Solves possible lack of IEEE members to support joint chapter petition.

ACTIONS & THOUGHTS CONT.

- Looking into student branches which are located at colleges which have an Aerospace/Electronics/Systems Engineering program.
 - Gauge the interest level at these schools.
- Interest will be growing at Rowan Univ. with the creation of a Systems Eng. Program.
 - If as little as 25% of current branch members are IEEE members there will be enough support to create a joint chapter.
 - Goal is to have at least 2-3 of graduating seniors apart of AESS with a joint chapter being created.

Rowan Univ. Student Branch Sept. 2010 Attendance
