

Cosimo Stallo

IEEE AESS Graduate Student and GOLD
Representative

AEISS BOG Meeting, New Brunswick (NJ), April 23-24, 2010

Possible Activities to increase AESS membership:

- 1) Organization of a **Summer School** (1 week):
 - Location: very nice places by the sea
 - Distinguished Lectures on Aerospace topics
- 2) **GOLD Aerospace Conference** (in 2011)
- 3) My participation to **R8 GOLD Congress** (**SBC 2010**, Leuven, Belgium , August, 4-8, 2010) and **R9 GOLD Congress** (La Paz, Bolivia, October, 2010 on invitation of R9 GOLD Coordinator, Salomón A. Herrera)
- 4) Creation of a **link** between **IAD School** (University of Rome, Tor Vergata) and **AESS** in order to find new AESS members among IAD students.

These activities aim at:

- establishing a **GOLD network in Europe, South America and North America** in order to increase the number of AESS GOLD members;
- providing good opportunities for sharing ideas and knowledge, discussion of current issues, and discovery of talents. Moreover, it can be a starting point to increase AESS members in South America, where the GOLD AGs, despite many difficulties, have shown great enthusiasm;
- exchanging ideas, contacts, and organizing social and networking events. They could be a useful and productive bridge between the experienced IEEE AESS members and the new incomers.

Dir. Prof. Aurelio Simone

Scuola IaD is a distance learning platform, offering degree and post-graduate courses in every university field. Since 1999, it has been training personnel in methodologies and methods of e-learning, and collaborated with public and private organizations. It offers:

- 5 Degree Courses;
- 37 Masters of Science.

It is associated with:

The European Association for Education of Adults ([EAEA](#))

The European Distance Learning and E-Learning Network ([EDEN](#))

The European Universities Continuing Education Network ([EUCEN](#))

The International Council for Open and Distance Education ([ICDE](#))

Scuola IaD also offers the Master of Science “**The Space: Communications and Navigation Satellite Systems**” (SPA), whose Director is Prof. Marina Ruggieri, and whose main aim is to train experts to both improve their knowledge and create business opportunities.

The Annual Forum “University and Job” at University of Rome “Tor Vergata”

With the endorsement of ALITUR (Association of Engineering Graduates of University of Rome “Tor Vergata”), Tor Vergata IEEE SB held an exhibit booth for the forum “University and Job”, on March 30-31, 2010. Its main aim was to show IEEE AESS activities and goals to university students and young engineers.
