

An Introduction to Div IX

to AESS AdCom

Fred Mintzer
Division IX Director 08-09
f.mintzer@ieee.org

25 April 2009

Anaheim CA

Introduction to Div IX

■ *Division IX Societies*

1. **Aerospace and Electronic Systems Society**
2. Geoscience and Remote Sensing Society
3. Information Theory Society
4. Intelligent Transportation Systems Society
5. Oceanic Engineering Society
6. Signal Processing Society
7. Vehicular Technology Society

Introduction to Div IX

- **Division IX Director Duties**
 - A one year term as Director-Elect (2007)
 - A two year term as Director (2008, 2009)

- **While a Division Director**
 - **A member of the IEEE Board of Directors (31 members)**
 - Expected to represent the interests of the IEEE vs. the interests of Div IX
 - **A member of the IEEE Technical Activities Board (63 members)**
 - **Membership on Committees, BoD appointment**
 - *IEEE Audit Committee (2008-09)*
 - *IEEE 4958 Committee (2008)*
 - *IEEE Employee Benefits and Compensation Committee, Chair (2009)*
 - *IEEE Insurance Committee (2009)*
 - **Membership on Committees, TAB appointment**
 - *TAB representative on MGA Membership Development Committee (2007)*
 - *TAB representative to IEEE Marketing and Sales Committee (2008-09)*
 - *TAB representative to IEEE Investment Committee (2009)*
 - *TAB Ad Hoc to review the TAB Management Committee, Chair (2009)*
 - **Other committee membership**
 - *Alternative Membership Models Task Force (2007-08)*
 - **Visit BoG/AdCom of each Div IX Society during two year term**

Introduction to Div IX

■ *How the Division IX Director is elected*

1. The Presidents of the seven Division IX Societies form a Nominating Committee; the Past Division Director serves as Chair
2. The Nominating Committee selects candidates to appear on the ballot
 1. NC members nominate candidates to appear on the ballot
 2. The NC votes on the number of names to appear on the ballot
 3. The NC selects the candidates to appear on the ballot
3. Candidates who appear on the ballot submit
 1. a professional biography
 2. a position statement
4. The members of Division IX Societies vote
5. The candidate receiving the highest number of votes wins

Introduction to Div IX

- ***Some topics of current interest***
 - **Membership**
 - **Finance**
 - **Multi-disciplinary research**
 - **IEEE 125th Anniversary Celebration**

IEEE Membership

- About 384,000 members in over 150 countries
 - ❖ over 40 percent are from outside the United States
- 85,000 student members
- 27,000+ society affiliates
- 300+ sections, ,400+ technical chapters
- 1,300+ student branches in 80 countries
 - ❖ 300+ student branch chapters
- 38 societies and 6 technical councils

From every work sector

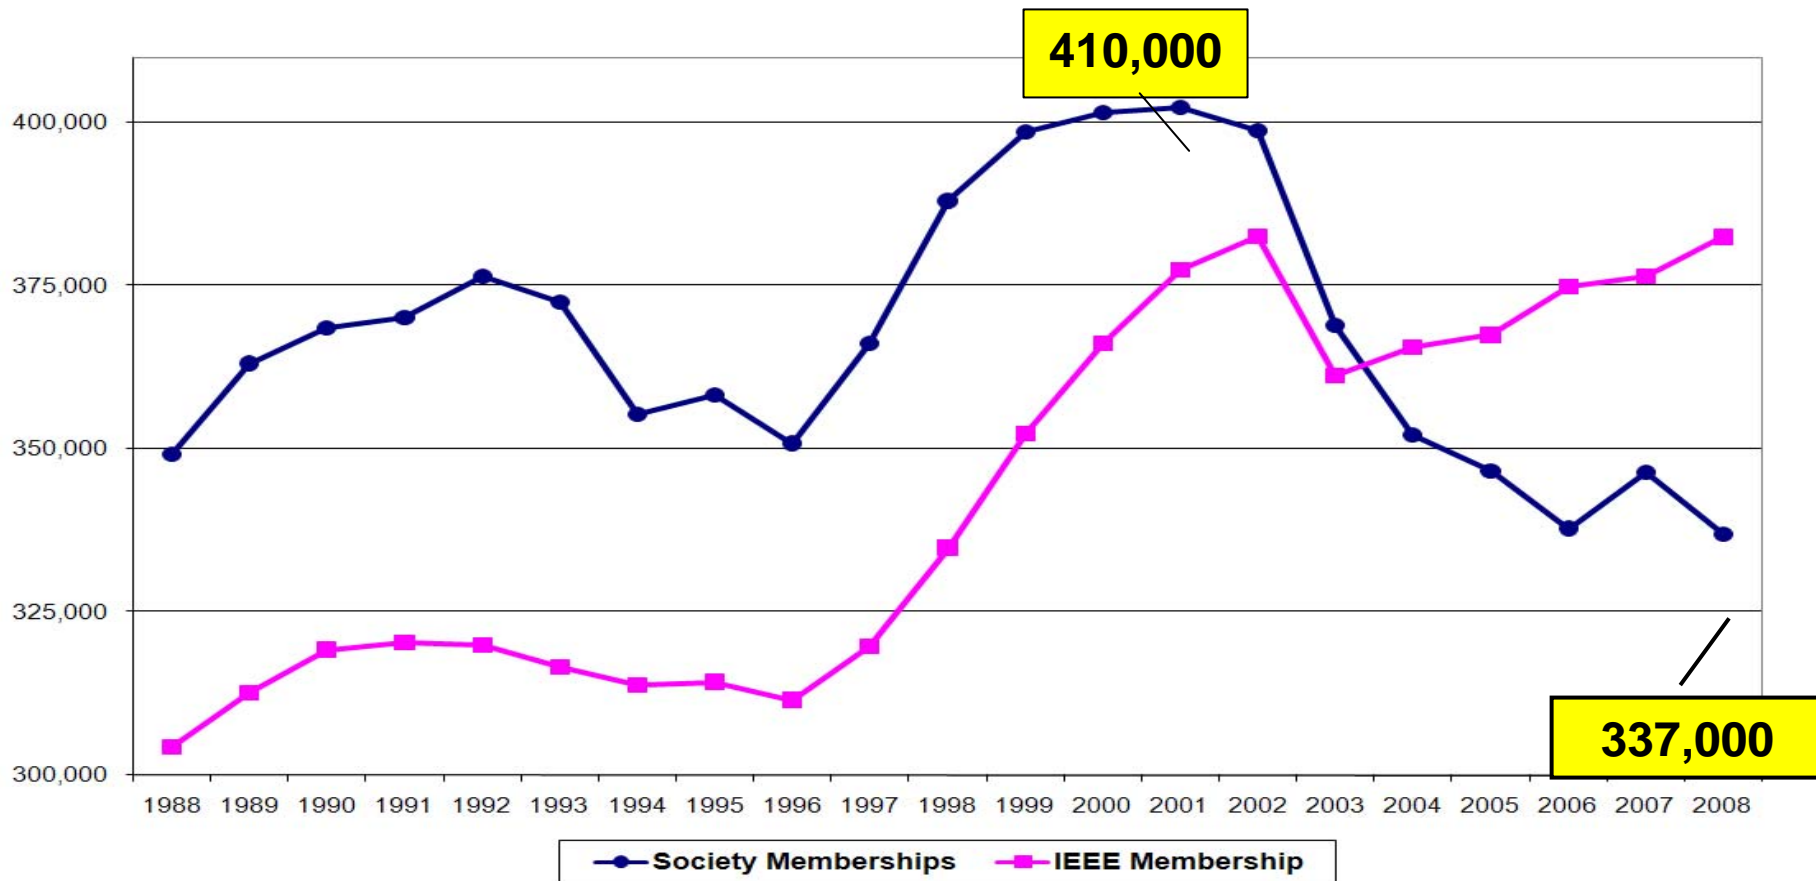

- 50% work for private industry
- 20% in academia
- 10% in government
- 20% other (retired, self-employed, unemployed, “other”)

Total IEEE Membership - 1963 to 2008

← 384,400 !

Society Memberships vs. IEEE Membership 1988 - 2008

Div IX Membership

IEEE Society Membership Totals as of February 2009

SOCIETY / DIVISION	IEEE Higher Grade Members (including GSMs)		Change		IEEE Student Members		Change		Society Affiliates		Change		Society Totals (with affiliates)		Change		Society Totals (without affiliates)		Change	
	2009	2008	#	%	2009	2008	#	%	2009	2008	#	%	2009	2008	#	%	2009	2008	#	%

Introduction to Div IX

- ***Some topics of current interest***
 - **Membership**
 - IEEE membership is growing, but ...
 - Growth in Regions 7,8,9,10
 - Society membership declined in 2008, and ...
 - Concerns
 - Affordability
 - Serving newer engineers
 - Serving practitioners
 - **Finance**
 - IEEE issues
 - Society issues
 - Infrastructure expenses
 - Society solvency
 - Financial forecasts / greater freedom to use reserves
 - **Multi-disciplinary research**
 - TAB New Technology Directions

125th Anniversary Celebration

- **Goals:** Increase awareness of contributions of IEEE, its members and the profession
- Kickoff at Sections Congress; tool kit; 8 Section events
- Website: www.ieee125.org or www.ieee.org/125
- Change the World student competition
- Opportunity for all groups to contribute – by organizing celebrations, using the anniversary mark, mentioning as often as possible, promoting the student competition

IEEE Celebrates its 125th Anniversary Presenting Emerging, World Changing Technologies During Its "Embracing Human Technology Interactions" Media Event

Event Features Panel Discussion on Technologies That Will Change the Way Humans Interact with Machines, the World and Each Other

(PISCATAWAY, N.J., U.S.A. – 10 March 2009) – IEEE, the world's largest technical professional society, today spotlighted seven technologies it believes will have world changing implications on the way humans interact with machines, the world and each other, in honor of its 125th anniversary.

On 10 March 2009 at the New Yorker Hotel in New York City, a panel of technology experts, moderated by The New York Times senior editor and technology reporter Steve Lohr, discussed emerging technologies in fields ranging from biometrics, computing, wireless power, and others, that they believe have the potential to change the world.

"For 125 years, IEEE and its members have influenced the creation of nearly all the technologies we now cannot imagine life without," said 2008 IEEE President Lewis M. Terman. "Today we take a glimpse into the future with some of those who are driving the development of some of the emerging innovations and technological advancements for the betterment of humanity."

Featured panelists and the technologies discussed include:

* Dr. Katie Hall, IEEE Senior Member, Chief Technology Officer, WiTricity – Dr. Hall is implementing a new technology that can wirelessly transmit power to common consumer electronic devices within several meters
