

## **IEEE Aerospace and Electronic Systems Society Strategic Plan, 2017**

### **Table of Contents**

- I.** Executive Summary
- II.** Conferences
- III.** Education
- IV.** Finance
- V.** Industry Relations
- VI.** Member Services
- VII.** Publications
- VIII.** Technical Operations
- IX.** Governance

## I. Executive Summary

This document represents the latest Version of the Strategic Plan for the IEEE Aerospace and Electronic Systems Society. It is intended be a living document that allows AESS officers and their committees on the AESS Board of Governors to help guide the Society as we move forward in our quest to serve our members, those of IEEE and the overall community addressed in the AESS Field of Interest.

The mission of the AESS is to provide a responsive and relevant professional society that attracts, engages, aids, and retains a diverse set of members (age, culture, community – theoretical, managerial and applications) worldwide in the areas of our fields of interest as defined in our constitution. AESS will accomplish this through technical, chapter and society activities in the areas of conferences, publications, education, technical operations, industry relations, and member services.

The vision of the AESS is to be essential to the worldwide technical community and be recognized for outstanding contributions in the fields of aerospace and electronic systems as demonstrated through the Society's products, service and offerings in the areas of conferences, publications, education, technical operations, industry relations, and member services.

The strategic plan for each of these areas is led by an AESS officer with the support of a committee on the AESS Board of Governors. The following strategic themes represent broad guidance from the executive committee as a basis to develop three-year goals and short-term actions for each area.

- Identify the diverse and evolving professional needs of worldwide IEEE/AESS communities
- Innovate and collaborate to implement new initiatives that improve and grow the IEEE/AESS
- Inspire, guide and empower professionals to engage in and benefit from IEEE/AESS activities

In addition to the specific actions and goals in the following sections of this plan, AESS has an overall objective to promote and participate in multi-society/council and multi-association activities in support of mutual activities and objectives, by the following:

- Look for potential opportunities to co-sponsor conferences
- Establish a joint Distinguished Lecturer Program
- Jointly develop Standards
- Look for areas of common interest and opportunities therein
- Engage in a joint Technical Community approach
- Establish a joint dues package with select Societies (this would qualify as an initiative)

## II. Conferences

The mission of AESS Conferences is to:

- Enable the conduct of high-quality conferences, symposia and workshops
- Produce high-quality technical content to serve AESS members and our technical community
- Facilitate the generation of reasonable surplus while maintaining high overall quality
- Refine and promote Best Practices in planning and managing AESS conferences
- Explore new conference delivery mechanisms

AESS Conferences is focused on refining and promoting best practices in planning, management, publications and financing our existing conferences, and determine whether any new conferences could be initiated to support the AESS membership and our overall technical community.

AESS has identified the following elements as critical to our continued conference performance:

- Strengthen the areas of setting up Conferences to ensure that we preserve the IEEE Name Brand, conduct a quality conference, produce quality proceedings, and provide a financial benefit to the Institute and Society. Key elements of these practices include:

- Make sure that a competent Memorandum of Understanding exists where we have co-sponsors that clearly delineate the responsibilities of each party.
- Generate a budget that is realistic, and produces a minimum of 20% surplus.
- Produce Conference Publications that are of high quality and maintain the reputation of the conference, AESS and IEEE.
- Create and maintain a conference operations guide as a supplement to the IEEE Conference Organizer's Manual, and ascertain that our conferences follow the IEEE and AESS conference guides.

**Short-Term Actions:**

- Update and publish the AESS conference guidelines to all AESS conference organizers, to reflect recent IEEE Policies and automated procedures.
- Review all conference budgets for opportunities to reduce expenses and/or leveraging corporate partnerships for increased attendance.
- Strengthen AES Conference Liaison for Financial Sponsorship – encourage new AESS Board of Governors members to participate in Conferences in their area of interest.

**Three-Year Goals:**

- Work with IEEE Meetings and Conference Events (MCE) to assure that the MOUs being created by the ICX process are meeting the AES Strategic Objectives.
- Increase the Conference Surplus returned to AES by increasing the number of Financial Sponsorships, through new Conferences and transitioning Technical Co-sponsorship to Financial Sponsorship on strategic conference meeting the AES Fields of Interest.
- Assure that all conference chairs follow the AESS conference guidelines by examining the historical results on publications quality, cooperation with other IEEE Operating Units, and maintaining surpluses through mature governance.

### III. Education

The mission of AESS Education Committee is to:

- Coordinate the educational activities of the Society to provide timely, relevant and interesting educational topics and delivery methodologies to our members and other members of the aerospace/defense community.
- Provide the means to deliver high quality Distinguished Lectures and Tutorials to our audience.
- Address the needs of emerging engineers.

**Three-Year Goals:**

- Strengthen the Distinguished Lecturer Program and Services:
  - Establish/reinvigorate Education activities where there are concentrations of members.
  - Improve and increase alignment of lectures with society technical interests.
  - Improve and increase the global distribution of our lecturers.
  - Reach YP (Young Professional) and WIE audiences.
  - Increases DL usage by and support to chapters.
  - Expand tutorial offerings and access online and through AESS conferences and publications.
- Develop and improve programs that support Young Professional (YP) and student members:
  - Mentoring Program launched in 2017.
  - Improve submissions for Robert T. Hill Dissertation Award.
  - Work with and for YP and student projects and events, including undergraduate projects, interaction with IEEE-HKN, educational activities aligned with the Radar Systems Panel.
  - Develop fundamentals tutorials for these members.
  - Support region IEEE student conferences, such as IEEE Rising Stars, and conference activities for students.

- Increase awareness and opportunity for educational programs:
  - Open call for nominations for new DLs for 2017-18 received a big response of high caliber potential DLs.
  - Mentoring efforts involving large base of volunteers.
  - Ensuring online presence is well supported and current.
  - “Chapter’s First DL” program to encourage chapter participation.
  - Regular support and coverage in AESS publications, including Systems Magazine and QEB.
  - Promoting AESS education activities to YP and students at AESS conferences.

## IV. Finance

The Mission of the Finance Committee is to develop and manage a budget that will:

- Allow AESS to deliver the types of services and benefits to our members and members of our professional community that are in keeping with the overall goals and objectives of the Society and IEEE.
- Generate a reasonable surplus to keep the Society solvent and vibrant and allow for expansion of our activities as needed.
- Provide adequate funds for new initiatives to better serve the members.
- Provide timely financial assessment to assist officers in managing their area.
- Provide feedback to the AESS Board of Governors regarding IEEE financial operations and information.
- Work in close cooperation with AESS VPs and Treasurer.

### Short-Term Actions:

- Strengthen Budgeting Process for establishing the annual budget.
- Strengthening the AESS liaison to Conferences and Publications to understand financial risk and upside investment funds potential for AES Initiatives.
- Develop a feedback mechanism regarding AESS investments.

### Three-Year Goals:

- Understand publication moves (Magazine and Xplore -- Open Source) and their impact on future financial flows.
- Increase Transaction publications from 4 to 6 issues per year.
- Work with Conferences to Increase the surplus returned to AESS as required.
- Put checks and balances in the process to improve the AESS Initiative planning, and protect our surplus.
- Seek additional sources of revenue such as corporate partnerships.
- Select a preceptor/Mentee.

## V. Industry Relations

The mission of industry relations is to provide technical and career support for our society members that are part of the aerospace electronics systems industry, specifically to:

- Help assure that the AESS services the needs of our industry/practitioner members throughout their career.
- Develop products/services that enhance professional development in industry.
- Develop and maintain professional relationships throughout industry for the mutual benefit of AESS, IEEE and individual members.

### **Three-Year Goals:**

- Establish active Industry Relations activities and collaborations through individual AESS Chapters, tying into Chapter technical activities and promoting AESS engagement with industry.
- Generate and maintain current, industry-focused content on the AESS website, as well as providing on-line links to specific Industry-focused features in the AES Systems Magazine.
- Establish and demonstrate strategic partnerships with relevant industry and industrial organizations worldwide.
- Develop new strategies for attracting industry advertisements in *Systems Magazine*, the AESS Web Site, etc., specifically investigating and implementing opportunities enabled by the recent acquisition of IEEE GlobalSpec.
- Position AESS in a pro-active role with the IEEE global industry strategy, leveraging the initiatives of the IEEE Industry Advisory Board Ad Hoc Committee through their reach out to the society chapters.
- Promote opportunities for Young Professionals in our industry fields of interests.

## **VI. Member Services**

The mission of AESS Member Services activity is to provide member services and benefits that attract and retain members.

### **Short-Term Actions:**

- Invite all new AESS members to participate in AESS events and activities via the new member "Welcome Letter" from the AESS President.
- Stem the tide of member drops via a reminder email, which would also ask for feedback on the reasons for the drop if they still do not renew.
- Continue Sending congratulatory letters to all newly elected Senior Members.
- Using the SAMIEEE database, seek new members that have AESS-related TIP Codes.
- Provide AESS Membership Brochure to attendees at all technically and financially sponsored conferences worldwide.

### **Three-Year Goals:**

- Maintain close liaison with Chapters and engage chapter members in AESS events and activities.
- Promote formation of AES-Joint Society Chapters to serve members where no chapter exists.
- If financially feasible, hold a Chapter Summit every three years in conjunction with the Sections Congress meeting to get Chapter officer feedback upon the technical direction of the society and improvements in chapter operations.
- Promote the concept of AES chapter participation in organizing conferences by providing conference planning resources to chapter officers.
- Grow AESS membership by 1% per year.
- Increase member participation in our activities and events.
- Reduce the number of member drops each year.
- Recruit student members to full membership upon their graduation.
- Offer assistance to members for elevating to the next grade.

## **VII. Publications**

The Mission of AESS Publications is to provide AESS members with scholarly, highly-regarded publications that support their professional growth and advancement. Publications will provide venues for publication of scholarly achievements, knowledge for the specialist, tutorials for the nonspecialist, and information for our professional community.

AESS Publications will pursue the following strategic vision for its publications:

- *Transactions* are relevant, timely, technically advanced, and highly regarded among professionals in our field.
- *Magazines* are attractive and desirable and address timely topics in our field of interest so as to draw members to AESS.
- *Tutorials* are a useful, informative, and timely resource for the professional growth of our members.
- *QEB* (Quarterly Email Blast) provides new and timely information to support our members' involvement in our professional community.
- *AESS Web Site* is a one stop shop for AESS information.

**Three-Year Goals:**

- Reduce the average submission to-publication delay for the AES transactions to 9 months.
- Achieve an average submission rate of 12 articles per month for the AES Magazine.
- Increase the contributions to AES publications from industry by 2 articles per month.
- Increase Impact Factor of transactions to 2.0.
- Increase Impact Factor of magazine to 1.0.
- Increase readership (opens) of QEB by 25%.
- Increase visits to IEEE AESS Web Site by 25%.

**Publications Initiatives:**

- Early posting of accepted articles on IEEE Xplore 2017.
- Implement advertising plan in the magazine.
  - Soliciting advertisers
  - Coordinate content with advertisers.
- Increase the presence of student activities in the magazine.
  - Student editors
  - Student highlights
- Improve the Operations of Editorial Board for the Magazine.
  - Develop Operations Manual for the magazine.
  - Improve training of the editors for the magazine.
- Increase industrial participation in AES publications.
  - New magazine column: "Industry Tips and Insights"
  - Plan special issues around industrial needs.

## VIII. Technical Operations

The mission of Technical Operations is to form and maintain Technical Panels (TPs) in the Society's fields of interest to stimulate technological advances and member engagement in technical networking, standards development, publications, conferences, chapter meetings, and other professional development activities.

**Three-Year Goals:**

- Review all TPs for relevance, activity and leadership.
- Seek revitalization of those TPs that may be dormant or lagging, and drop those TPs whose relevance or currency has expired.
- Identify topics and potential leaders for new areas within our Fields of Interest where technical collaboration would be beneficial.
- In collaboration with Conferences, identify and recruit AESS members from TPs to participate in organizing AESS conferences.
- In collaboration with Member Services, promote interaction between TPs and local AESS chapters to increase AESS member participation in these activities.
- Develop guidance in the form of best practices and recognize outstanding TPs.

## **IX. Governance**

The mission of Society governance is to:

- Provide a clear operating framework for all Society activities.
- Assist officers in managing the Society's business areas in a professional and consistent manner.

### **Three-Year Goals:**

- Review governing documents to ensure continued compliance with all IEEE policies and "must-haves."
- Review governing documents with analysis to improve AESS operation, as needed.
- Ascertain that all officers understand their responsibilities per the governing documents and abide by all provisions therein.
- Improve the awareness of the governing documents to our membership.
- Maintain the "Introduction to AESS" document, focused on young engineers.
