

Radar Systems Panel

Braham Himed

May 2017

Radar Systems Panel Objectives

- Sustain and oversee the program of IEEE Radar Conferences
- Manage the nomination and selection of candidates for IEEE Awards in the field of Radar
- Promote and support publications in the field of Radar
- Promote educational activities in the field of Radar
- Encourage the submission of nominations for IEEE Fellows and Senior Members in the field of Radar
- Provide periodic revision of IEEE Standards pertaining to the domain of Radar

Radar Systems Panel Committees

- Awards
- Civilian Radar
- Education
- Nomination and Appointments
- Radar Conferences
- Standards
- Waveform Diversity

Way Forward

- Develop vision & a strategic plan for next 3 years
- Strengthen diversity and international participation
- Move the IEEE RadarConf outside US, twice out 5 times (5 year cycle)
- Increase contribution on civil radar applications and technologies in radar conferences and Panel activities
- Increase RSP activities in waveform diversity and frequency spectrum sharing
- Organize special educational events to attract more students and young Engineers

2017 Meetings

- 2017 IEEE RadarConf – Seattle, WA
 - Excellent turnout – 43 members attended
 - Held 1st Summer University to coincide with Radar Conference
 - Women In Engineering meeting
