

1May 2017

Association of Unmanned Vehicle Systems International (www.auvsi.org)

The Mississippi AUVSI Chapter has members through-out the state engaged in UAS developments including US Army Engineer and Development Center- Vicksburg, NASA Stennis- Moss Point, HINDS Community College-Raymond, Mississippi State University-Starkville and Jackson State University-Jackson.

Dennis Lott, integrated the AESS quadrotors and support the project testing and development and continues to promote IEEE AESS activities.

Dennis Lott, UAS Program Director, Hinds Community College, 4136 Airport Road, Bolton, MS 39041 Ph: 601-857-3301 email: dennis.lott@hindsc.edu

Tracey Case, HINDS CC Aviation UAS graduate made a presentation on Hexacopters at a 20 March 2017 meeting that invited IEEE members.

The May 2017 issue of the AUVSI magazine shows an article on Commercialization of UAS and a pdf copy is sent with this report.

AESS officer comments regarding Unmanned Aircraft Systems (UAS) or any unmanned technology are welcome.

Respectively Submitted,

Ron Ogan
