

**Jim Leonard**

**AESS Senior Past President**

**Fellow Evaluation Chair**

**Student Activities Co-Chair**

**IEEE-USA PACE Representative**

## Students:

We have three AESS Student Branch Chapters:

- Missouri University of Science & Technology (MS&T)
- Kansas University
- Portland State University

I plan to visit each this year (MS&T is within 130 miles, so I will visit there several times).

Purpose is to motivate and revitalize.

Ron and I may visit others.

## High School Students:

We have a student project with the Future of Flight Museum to help send two students from the Seattle area to the UK (show video).

## Fellow Evaluation:

I have sent an email to Dr. Babcock (2009 Chair) requesting a list of members and information for performing the evaluation this year.

## AESS Booth at IEEE-USA Annual Meeting:

I have registered our booth for the event (4-7 March 2010 in Nashville). We paid for the space last Fall. I will man the booths with help from Ron Ogan. I have requested Judy to provide copies of past issues of SYSTEMS magazine along with tutorial copies for handout.

## PACE:

I will encourage PACE Divisional Projects and meet with the IEEE-USA Committee.
