

VP Finance Report

**AEES Officers Meeting
Arlington VA
26 January 2013**

**Mark E Davis
medavis@ieee.org**

Outline / Issues

- **AESS Finance Strategic Plan**
- **2012 & 2013 Budgets Compared to recent History**
- **Issues in creating an AESS Budget**
- **Summary**

Financial Strategic Plan

(ME Davis First Independent Look)

Objective: The AES Strategic Plan for Finances should be focused on realistic planning for future years to protect the current sources of income (Conference and Publications), and put resilience in the planning for unforeseen cost increases (IEEE Projects, Accounting Rules and Investment Market fluctuations)

Short Term Actions:

1. Strengthen Budgeting Process for establishing 2013 budget.
2. Strengthening the AESS liaison to Conferences and Publications to understand financial risk and upside investment funds potential for AES Initiatives

Three-Year Goals (2013-2015)

1. Understand publication moves (Magazine and Xplore -- Open Publications) and their impact on future financial flows.
2. Work with Conferences to Increase the Surplus returned to AES by 10 percent a year.
3. Put checks and balances in the planning to improve the AESS Initiative planning, and protect against being put on Watch List.

IEEE Financial/Budget Process

Source: Ruth Dyer, VP Finance IMS 2012 Tutorial on IEEE Finance

- In a given year, a Society manages budgets from 3 different years
 - Final accounting for last year's budget
 - Review and make adjustments to forecast for current year's budget
 - Prepare and revise next year's budget
- Budget Process
 - Final accounting in March for last year
 - Post Operating Net ($ON = \text{Revenue} - \text{Expenditures}$)
 - Receive Investment Income (Inv Inc) ← **Biggest Risk !**
 - Compute Total Society Net ($TN = ON + \text{Inv Inc}$)
 - 2013 Reserves = 2012 Reserves + TN
- IEEE treatment of Reserves (established in 2008)
 - 50% rule : If final ON > 0 in previous year, then the Society can spend 50% of ON in **current year**
 - 3% rule: If reserves-to-expense-ratio (RER) for entire IEEE & Society > 50%, then 3% of Society reserves can be added as expenses to **next year's** budget for **new initiatives**
- Watch List: If ON < 0, after adjusting for reserve allowances (50% and 3% rules), for two years in a three-year window, Society is put on a **Watch List**

IEEE History of AESS Budget (ca. Dec 2012)

SUMMARY BY COST CENTER	2009 ACTUALS	2010 ACTUALS	2011 ACTUALS	2012 BUDGET	2013 BUDGET

VP Conference

**There Is A Historicly Large Difference Between
IEEE HQ and AESS VP Conferences**

Issues in Predicting AESS Budget

- **Membership statistics: AESS total “stuck” at 4700. Budget 2011 planned on 10 percent increase. (5100). Now tracking at 4400.**
- **IEEE Investment Accounts: cannot predict markets!!**
- **Publications: need to understand the business model for new AESS Magazine publishing costs.**
- **Conferences**
 - **Only 3 Financial Conferences Included in 2013 Budget**
 - **New policy on Technical Cosponsorship and Open Source Publishing may have a major impact on Operations.**
- **New IEEE “initiatives”**
 - **Retroactive charges for IEEE medical and pension costs?**
 - **Open Source publication – no revenue stream, and charging Conferences for publications in Xplore**

Summary

- **Great Benefit from IMS Financial Tutorial**
- **IEEE Policy and Accounting Changes**
 - Charges for Retirement and Medical Insurance
 - Policy Changes in Technical Cosponsorship Conferences
 - Open Publications Initiative – will this reduce the IEEE Xplore funds flow with no increase in Conference Revenues
- **2013 AESS Budget Activity**
 - What are the Publications and Conference numbers likely to be?
 - Keep AESS off of the Watch List
 - Generate funding for AESS Initiatives.
- **Continuing to Learn How IEEE Does Financial Planning**
 - Attend IEEE Financial Workshop in March?
