WIRELESS
VITAE'09

First International Conference on Wireless VITAE 2009

**Wireless Communications, Vehicular Technology,
Information Theory and Aerospace & Electronic Systems Technology
(Wireless VITAE)**

17-20 May, 2009, Aalborg Congress and Culture Centre, Aalborg, Denmark

July 6, 2009

FIVE DAYS ■ FOUR CONFERENCES ■ ONE EXHIBITION

**EUROPEAN
MICROWAVE
WEEK**
Rome

28 September - 2 October 2009

EuMA
European Microwave
Association

Co-sponsored by:

Endorsed by:

EurAAP

Supported by:

Organised by:

Official Publication:

EUROPEAN MICROWAVE WEEK 2009

Nuova Fiera di Roma
Rome, Italy
28 September - 2 October 2009

CONFERENCE PROGRAMME

39 THE EUROPEAN MICROWAVE CONFERENCE 2009

The 39th European Microwave Conference

**EuWiT
2009**

The 2nd European Wireless
Technology Conference

**EURAD
2009**

The 6th European Radar Conference

**EuMIC
2009**

The 4th European Microwave
Integrated Circuits Conference

WWW.EUMWEEK.COM

CO-LOCATED WITH
SAT EXPO EUROPE
ROME, ITALY
WWW.SATEXPO.IT

4-6 FEBRUARY
2010
ROME, ITALY
WWW.PSATS.EU

General Chairs
Prof. Marina Roggeri
(University of Rome, "Tor Vergata", Italy)
Prof. Mario Marchese
(University of Genoa, Italy)
Dr. Kandeepan Sithamparanathan
(Create-Net, Italy)
Steering Committee Chair
Prof. Imrich Chlamtac
(President, Create-Net, Italy)
General Vice-Chairs
Prof. Alessandro Vanelli-Coralli
(University of Bologna, Italy)
Dr. Haitham Cruickshank
(University of Surrey, UK)
TPC Chairs
Prof. Claudio Sacchi
(University of Trento, Italy)
Prof. Giovanni Giambene
(University of Siena, Italy)
Dr. Mauro De Sanctis
(University of Rome, "Tor Vergata", Italy)
Industrial Chair
Mr. Agnelli Stefano
(ESOA/Eutelsat, France)
Advisory Committee
Prof. Giovanni E. Corazza
(University of Bologna, Italy)
Prof. Abbas Jamalipour
(University of Sydney, Australia)
Prof. Sam Rebenfeld
(Macquarie University, Australia)
Dr. Sandro Scallise
(German Aerospace Centre, Germany)
Dr. Takaya Yamazato
(Nagoya University, Japan)
Dr. Tarik Taleb
(Tohoku University, Japan)
Mr. Paolo Dalla Chiara
(Sat Expo, Italy)
Publications Chair
Dr. Igor Bbio
(University of Genoa, Italy)
Local Chair
Dr. Tommaso Rossi
(University of Rome, "Tor Vergata", Italy)
Conference Coordinators
Barbara Tarok (ICST, Belgium)
Iaria Pivato (Sat Expo, Italy)
Website Chair
Dr. Lorenzo Mucchi
(University of Florence, Italy)

Important Dates
Paper Submission: TBC
Notification: TBC
Camera Ready: TBC

CALL FOR PAPERS

The next generation satellite services will cater the demands of personal services by bringing the satellite terminals directly to the hands of the user hence providing satellite personal services directly to the user. Technological advances in satellite communications have made it possible to bring such value added satellite services directly to the user by reducing the overall cost as well as addressing many technological challenges such as achieving mobility, having miniaturized antennas and terminal sizes, and providing high data rate links. With the unique broadcast nature and ubiquitous coverage of satellite networks, the synergy between satellite and terrestrial networks provides immense opportunities for disseminating wideband multimedia services to a wide range of audiences over large numbers of geographically dispersed people. It is evident that the satellite will play a complementary, but essential, role in delivering multimedia and telecommunication services to infrastructure-less region where the terrestrial high-bandwidth communication infrastructures are practically unreachable. In such a context we introduce a new category claimed to be defined as **Personal Satellite Services (PSATS)** by means of extending the satellite services directly to the user for personal services such as communications, multimedia and location identification. Such opportunities are also currently fueling accelerated research in PSATS enabled systems which we cover in this conference. The services enabled by PSATS not only cover the requirements of an ordinary citizen but also provide defense personal services such as tracking, visualization and virtualization in a highly secure communication environment.

The conference will explore such techniques, and aims to serve as a premier international forum for discussions, bringing together academic and industrial researchers, practitioners, and students interested in future techniques relating to the satellite communications, networking, technology, systems, and applications.

THE CONFERENCE WILL CONSIST OF DIVERSE TECHNICAL TRACKS:

GENERAL TRACK

- Satellite antenna designs, modulation and coding
- Synchronization, equalization and channel estimation
- Channel modeling for satellite communications
 - MIMO communications for satellites
 - Interference detection and mitigation techniques
 - DVB and broadband access technologies
- Networking topologies for broadband over satellite links
 - IP over satellite and QoS support
- Reliable multicast protocols, transport protocol over satellite
- Onboard switching and processing Delay tolerant networking
 - Radio resource management and packet scheduling
- Power control, hand-over issues and call admission control
 - Emerging standardizations and issues
 - Satellite navigation systems, services and tracking
- Real-time multimedia streaming, broadcast/multicasting
 - Security related issues of satellite communications

VALUE ADDED SERVICES AND FUTURE SYSTEMS

- Voice, broadband Internet, DVB, positioning
 - Infrastructure and network management
- IP over satellite and heterogeneous networks
 - Quality of Service (QoS) issues
 - Ka-band and emerging frequency bands
 - Earth observation
 - Emergency service assistance

CONVERGENCE OF SATELLITE SYSTEM AND EMERGING TECHNOLOGIES

- Convergence with Terrestrial, Wireless Access, and Sensor Networks
 - Cooperative/distributed network architectures
 - Quantum satellite communications
- Ground terminals with Cognitive Radio functionalities
 - Convergence with optical networks

From Satellite Business Applications to Science, and again to Business Applications, and Marketing

Come meet the European Satellite Operators at PSATS/SAT Expo Europe and share your exceptional business, research and scientific ideas with them

Peer reviewed papers will appear in IEEE Explorer (TBC)

Best Student and General Paper Awards

**IEEE****VTS**
Connecting the Mobile World**VTC2010-Spring
Taipei***The Intelligent Mobile World*Paper Submission Deadline
15 September 2009**2010 IEEE 71st Vehicular Technology Conference
16–19 May 2010, Taipei, Taiwan**

The 71st IEEE Vehicular Technology Conference will be held 16-19 May 2010 at the Grand Hotel, Taipei, Taiwan. This semi-annual flagship conference of the IEEE Vehicular Technology Society will bring together individuals from academia, government, and industry to discuss and exchange ideas in the fields of wireless, mobile, and vehicular technology. The conference will feature world-class plenary speakers, tutorials, and technical as well as application sessions.

General Chair

Kwang-Cheng Chen, National Taiwan University, Taiwan

General Vice Chair

Yu-Chee Tseng, National Chiao Tung University, Taiwan

Technical Program Chair

Chin-Liang Wang, National Tsing Hua University, Taiwan

Technical Program Co-Chairs

Wan-Jiun Liao, National Taiwan University, Taiwan

Li-Chun Wang, National Chiao Tung University, Taiwan

Panel Chair

Lajos Hanzo, University of Southampton, UK

Tutorials Chair

Len Cimini, University of Delaware, USA

Publications Co-Chairs

Chih-Peng Li, National Sun-Yat Sen University, Taiwan

Y.-W. Peter Hong, National Tsing Hua University, Taiwan

Finance Chair

Hsuan-Jung Su, National Taiwan University, Taiwan

Local Arrangements Chair

Phone Lin, National Taiwan University, Taiwan

The technical program committee invites the submission of original, unpublished technical papers in the following areas:

*Antennas & Propagation**Transmission Technologies**Multiple Antenna Systems & Space-Time Processing**Cognitive Radio & Cooperative Communications**Wireless Access**Wireless Networks**Ad-hoc & Sensor Networks**Mobile Satellite & Positioning Systems**Transportation**Vehicular Electronics & Telematics**Mobile Applications & Services*

Prospective authors are encouraged to submit a 5-page full paper (or a 2-page extended abstract including results) through the conference web site.
