ABOUT THE COVER . . .

- Top Left: 6½ lb. ultra-low sidelobe antenna for solid-state low pulse power radar.
- Top Right: K_A-Band printed circuit antenna for smart munitions that will withstand 10,000 g's.
- Bottom: Helicopter tail-rotor assembly (double exposure) used for development of blade spectral signatures.
- All From: *Proceedings of IEEE 1986 National Radar Conference* being held this month—sponsored by your society.

IEEE AEROSPACE AND ELECTRONIC SYSTEMS SOCIETY

The Aerospace and Electronic Systems Society is a society, within the framework of the IEEE, of members with professional interests in the organization, design, development, integration and operation of functional systems for space, air, ocean or ground environments. These systems include, but are not limited to, navigation, avionics, spacecraft, aerospace power, radar, sonar, telemetry, defense, transportation, and command and control. All members of the IEEE are eligible for membership in the Society and will receive this *Magazine* and the *Transactions* upon payment of the annual Society membership fee.

The Society Board of Governors, Organization, and its Committees will be found on cover 3.
