## DATA ACCURACY AND CORRECTIONS THERETO

This directory was compiled from data input received through many channels. We used as many bits as available to try to insure that it was correct as of February 1, 1992 even though our sources conflicted in many cases. Please consider this a *working* directory, not a definitive one, and channel your corrections as noted below.

The *General Membership Roster* was provided by the IEEE Membership Department and reflects their knowledge as of February 1, 1992. All corrections to this must go to Coding, IEEE, 445 Hoes Lane, Piscataway, NJ 08854.

Data Input Closing Date:  
February 1, 1992

The *Chapter* listing reflects the reports sent to Field Services by the local IEEE Sections; corrections should be made through those channels.

*Panel Listings* reflect the Chairman's Annual Report to the Society Technical Vice-President; corrections should follow the same path.

All other changes should be channeled to the Society Administrative Editor.
