Marina Ruggieri

Luke Rosenberg

George Schmidt®

Ref: Mary Ward-Callan TAB Overview

- Conferences revenues and net are recovering, with a new mix of delivery mechanisms with virtual and in person components, as opposed to going totally hybrid
 - Conference OA environment is changing quickly
 - EERT is still highly active since COVID is ever present
- Society/Council Periodicals are still strong, including the OA ramp-up in hybrids
 - Accelerated OA journals are coming to the point of potentially receiving Impact Factor
- Continue to support Future Technical Community Growth
 - ▶ Invest in mission-focused and new revenue generating areas for the future: Climate Change, Data, Video, etc
