

# IEEE Aerospace Electronic Systems

*M. Sabrina Greco*  
*IEEE AESSE President Elect*

*2023 Strategic Planning Meeting (Princeton NJ, USA)*  
*14 February 2023*

- ▶ Long term goals:
  - be **more inclusive and diverse**
  - **increase our impact** particularly in the regions, the areas of interest and the member categories where we are under-represented. Everything should be in line with IEEE motto: Advancing Technology for Humanity
  - try to be the **drivers of the changes, possibly cooperating in cross-society initiatives**
  
- ▶ We are a healthy society. We have funds for new initiatives (be creative!)

- ▶ Implementation (for each VP):
  - Focus on 1 or 2 initiatives per year
  - Define a precise roadmap and a timeline with a responsible for each step
  - Define measures of success
  - Identify threats/risks
  - Launch a pilot initiative
  - Keep an eye on what the other IEEE and non-IEEE are planning for the future

Happy  
BIRTHDAY,

Sabrina
